- Laravel
- Kotlin
- IntelliJ
- VS Code
- Android Studio
- Figma

LANGUAGES

- English
- Sinhala

PROJECTS

Library Management System (MongoDB, Express, React, Node JS)

Group Project

2023-NOV - 2024-JAN

<https://github.com/theumaa/PUSL2023-lmsAppN.git>

Efficiently manage library resources with our comprehensive Library Management System. Streamline cataloging, track book circulation, and automate administrative tasks. Enhance user experience with quick searches and user-friendly interfaces. Our system ensures a seamless library operation, fostering an environment conducive to learning and knowledge accessibility.

Sport Complex Booking System (React, Laravel)

Final Year Individual Project

2023-SEP - 2024-APR

<https://github.com/theumaa/Sports-Complex-System-Frontend.git>
<https://github.com/theumaa/Sports-Colpmex-System-Backend.git>

Revolutionise your sports complex scheduling with our dynamic booking system built on React and Laravel. Seamlessly manage facility reservations, league scheduling, and member registrations. The user-friendly interface ensures hassle-free bookings, while the robust backend powered by Laravel guarantees reliability and efficiency. Elevate your sports complex operations with our cutting-edge technology.

Leraning Mangement System (Flutter, Dart)

Group Project

2023-MAR - 2023-MAY

<https://github.com/theumaa/PUSL2023-lmsAppN.git>

Transform education with our Learning Management System crafted using Flutter and Dart. Experience an intuitive interface, seamless content delivery, and interactive learning features. Elevate engagement, track progress effortlessly, and foster a dynamic learning environment. Our system is the key to a modern, efficient, and enriched educational experience.

Shop Finding App (Android Studio, Java ASP.NET, My SQL)

Group Project

2023-JAN - 2023-APR

<https://github.com/theumaa/ShopFindingApp.git>

Discover a world of shopping convenience with our Shop Finding App. Crafted using Android Studio and Java, powered by ASP.NET and MySQL, this app offers a seamless experience. Find nearby stores, explore deals, and navigate effortlessly. Elevate your shopping journey with our innovative and user-friendly application.

this project have Android app users can access with that and admin panel also manage by website.
